iPrep Math

February 2019

Parent Consent Form

In the 2019-20 school year, Arvida Middle School will be offering iPrep Math. This math course provides students with the opportunity to accelerate in mathematics curriculum in a non-traditional academic setting. This course meets the mathematics requirement for 6th grade. Coursework will be enhanced by a technology enriched environment that is designed to meet each student’s needs. Students will participate in a variety of instructional designs, including online instructions, flexible face-to-face facilitated instruction by certified Arvida mathematics teachers, and exposure to a multitude of collegiate partnerships.

iPrep Math is a 21st century personalized and blended learning environment. The curriculum will be aligned with the goals of the Common Core State Standards. Teachers will design learning activities that are relevant and support the development of personal meaning and connections. Students will develop meaning for their learning through hands-on discovery activities and technology. Teachers will circulate to assist students and monitor student work. Individually or in small groups, students will engage in activities to practice skills learned. The student will play a role in driving their own learning through the development of an iLap (individual learning plan). Students will also be engaged in peer-to-peer learning and project-based activities.

If you would like for your child to be considered for the iPrep Math class in lieu of the traditional math class, please complete and sign the consent form below. Please note that placement in the iPrep Math course is based on current teacher recommendation and program capacity.

Sincerely,

Nancy Aragon, Principal

I am aware that by signing below I am choosing for my child to be considered for placement in the iPrep Mathematics class in lieu of the traditional math class. I am aware that space is limited and that my timely return of this letter is essential to possible placement in iPrep mathematics.
